Press Release

Hangover Free Holidays

Chaser Plus-Freedom from Hangover and Boston Party Tours Team up.

When you use the 30 passenger party bus provided by Boston Party Tours everyone will receive free samples of Chaser Plus-Freedom From Hangovers. Now, you can go have a safe fun night on the town without the feeling like something the cat dragged in the next morning.

For safe, effective hangover prevention more people trust Chaser Plus hangover pills

There are two reasons more people turn to Chaser Plus for hangover prevention than any other hangover medicine. It works and it's safe. Unlike aspirin, acetaminophen and other hangover remedies, Chaser Plus helps prevent hangover symptoms before they occur. And Chaser Plus is a safe alternative to those hangover cures, most of which carry serious alcohol warnings. Just take two Chaser Plus hangover pills with your first drink, and two more later to help you wake up feeling great. The Chaser Plus hangover pill is designed to help stop headache, nausea, sensitivity to noise and light, dizziness, fatigue, dry mouth and other hangover symptoms from turning a great night into a miserable morning.

Why do we need a hangover cure?

Hangovers aren't just for the over indulgent. It takes an average of just 3.2 drinks to cause one. For 10 percent of people it takes just one or two, making hangovers something that can affect anyone who enjoys an occasional drink. And hangovers are costly. Each year they cost billions of dollars in lost productivity. Published studies show the bulk of this cost is caused by light-to-moderate drinkers, and that instead of discouraging drinking, hangovers actually may cause people to drink more. So what can people do? Most painkillers carry serious alcohol warnings. Not drinking at all is effective, but not an attractive option for most people. Then there's Chaser Plus hangover prevention. Available at: Walgreens, CVS, 7-11, Rite-Aid GNC, Wal-Mart, Kroger, plus thousands of locations throughout US and Canada.

Drink responsibly. Never drink and drive.

Chaser Plus does not prevent intoxication and is not intended to treat or prevent the consequences of excessive alcohol consumption. It will not help you pass a sobriety test. Please drink responsibly. Never drink and drive. Chaser Plus is not intended for people under the legal drinking age.
